

Matthew S. Boulos, DO

COVID-19 Pulmonary and Critical Care Fellow, resigned

Sick at the bedside

Quitting medicine

Don't do it

They said

The world needs you

They said

You at the bedside is who I want to see

Don't quit medicine

You're the voice

We need

I'm tired

I'm crying

My voice is growing weak

This country, this system

Shit is very bleak

I know you think

I'm what you need

I'm just not sure

Of what

I need

I need support

I need space

I need time

Otherwise

I'll be sick

With you

At the bedside
